

NEWS OF THE WEEK

—Continued from Page One—

Typhoon Sweeps Philippines

Manila, P. I.—Searchers expect to find many more bodies to add to the 20 thus far recovered on the island of Luzon, swept by one of the most destructive typhoons in the history of the Philippines. More than 400 are missing and the trans-Pacific airliner China Clipper was held over at Wake Island an extra day.

Football Goes Musical

Princeton, N. J.—Though Princeton has been consistently triumphant over Harvard on the gridiron, Nassau's old grads looked with jealous eyes on the smart Crimson band which annually took all musical honors at the season's big game. This year, a musically-inclined alumnus collected enough from 20,000 graduates to give Princeton a big-league band, in the hope of taking not only football honors but musical as well.

American Professor Honored

Geneva, Switzerland—Dr. Manley O. Hudson, Bemis Professor of International Law at Harvard, was elected to the Permanent Court of International Justice by the League of Nations Council. He is the fourth American so honored, his predecessors being John Bassett Moore, long Counselor of the State Department, Chief Justice Charles E. Hughes, and former Secretary of State Frank B. Kellogg, who resigned last year.

An Expensive Campaign

Chicago, Ill.—Americans have become accustomed to big campaign funds since Abraham Lincoln attained the Presidency on an expenditure of \$700. Most costly campaign was that of Harding, at \$5,819,723. This year Chairman Farley gathered \$2,094,190 for the Democratic campaign. Republicans estimated it would need \$8,000,000 to unseat President Roosevelt. Of this they raised only \$2,050,000, and National Headquarters say they will need \$1,000,000 a week from now until election. The Democrats want \$1,500,000 for a final drive. Big corporations are fighting shy of contributions to either party, and campaign managers fear a curtailment of radio time and other expensive outlays.

German Art on View
Philadelphia, Pa.—Under the sponsorship of the Carl Schurz Memorial Foundation, organized six years ago to foster cultural relations between this country and Germany, four rooms of this city's huge Museum of Art have been filled with notable German works of art dating from the 15th century. Since many of the pictures belonged to German municipalities that had defaulted in securities sold to American investors, 25 canvases destined for the exhibit were withdrawn to prevent their seizure by American creditors.

News-Shorts from the Capital
Washington, D. C.—The President approved 88 PWA projects amounting \$10,697,410 in grants and \$422,000 in loans spread over 35 states.... Guy T. Holverson, Commissioner of Internal Revenue announced refunds of \$39,000,000 to taxpayers during the last fiscal year. Refunds of AAA processing taxes amounted to \$9,055,119. Commissioner of Currency O'Connor announced the complete liquidation of 43 bank receiverships in September, making a total of 484 receiverships dissolved since the bank holidays of 1933. Disbursements to depositors and other creditors totaled \$141,762,837, more than 75% of the liabilities involved.

Newspaper Surprises Readers
Columbus, Ohio—Readers of the Citizen rubbed their eyes in surprise at the following front-page announcement: "Many of our friends say they are getting sick and tired of politics. Note carefully: we have no stories, no columns, no editorials, no cartoons, no pictures on politics. We just thought it might be refreshing." After lunch baskets of mail had been sent, hundreds of phone calls tabulated it was found two-thirds of the city's denizens applauded; the third voted "all right for one day but don't try it often."

Easy Pleasant Way To LOSE FAT
How would you like to lose your fat, increase your energy and improve your health?
How would you like to lose a double chin and your too prominent hips and abdomen and at the same time make your skin so clean and clear that it will compel admiration?
Get on the scales today and see how much you weigh—then get a bottle of Kruschen Salts that cost next to nothing and which will last you 4 weeks. Take one half teaspoonful in a glass of hot water in the morning—put down on pasture and fatty meats—go light on potatoes, butter, cream and sugar—and when you have to shed the contents of this first bottle weigh yourself again.
Notice also that you have gained in energy—you feel younger in looks—Kruschen will give you a fat person's joyous surprise. Refuse imitations—safeguard your health—you lose to SAFELY the Kruschen way.
NOTE—Many people find that the only diet change necessary while taking Kruschen regularly is TO EAT LESS.

THE NEWS-WEEK IN PICTURES

—By Exclusive Arrangement with NEWS-WEEK, The Illustrated News Magazine—

CHINA CLIPPER READY FOR FIRST TRANSPACIFIC FLIGHT WITH PASSENGERS

Blazing an 8,000-mile trail from San Francisco to Manila, Philippine Islands, the giant Pan American Airways "China Clipper" begins carrying passengers Eastward on October 21st. Aboard her will be three New York newspaper men on a race around the world. Since the trip will land at San Francisco at the same moment and probably by East by plane of comparable speed, the 25,000 mile contest narrows down to a 9-mile sprint from Newark Airport to New York.

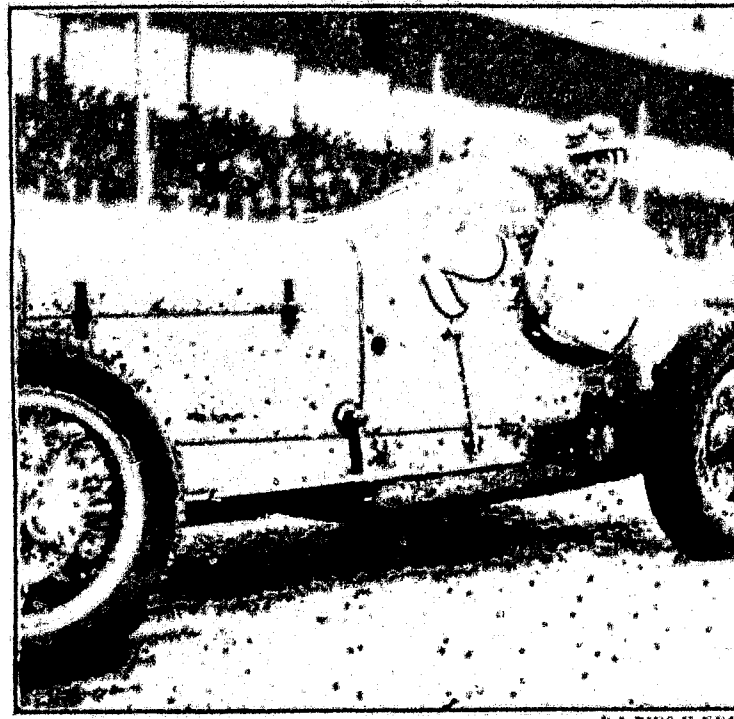

BRITISH LEADER SPEAKS

Winston Churchill, one of Britain's greatest living statesmen, addresses French public men on Anglo-French unity at Paris.

WHERE DEATH OVERTOOK A SPANISH TANK

When a Rebel high-explosive shell penetrated the turret tank in the battle for Toledo five occupants were instantly killed. Today the Rebel line grows closer about Madrid, whose defenders are preparing for a long siege.

MILLIONAIRE DRIVES HIS OWN RACING CAR

Joel Thorne, of New York, has entered five powerful machines for the \$50,000 in prizes offered in the revival of the famous Vanderbilt Cup race over a new 400-mile course on Long Island.

FEELING BETTER, THANKS!

POLITICAL OPINION . . .

DEMOCRATIC
WORLD IS NOTIFIED
U. S. FROWNS ON WARConstructive Foreign Policy
of Roosevelt Discourages
Europe's War Ardor

One of the paramount issues in the present political campaign is supplied by the threat of another European war, declares John Cudaby, American Ambassador to Poland, who has just returned to this country on leave.

"Citizens should wake up to the dangers which threaten them from Europe," said Mr. Cudaby. "All other so-called political issues shrivel into insignificance compared with the question of what position the United States should take in the case of war in Europe."

"The American people are unanimous in their resolve that we must stay out of such a war, regardless of the sacrifice. We shall not make other people's wars our wars."

"It is in response to this universal sentiment that the Roosevelt administration sponsored the present neutrality measure, which prohibits shipment of munitions or making of loans to belligerents."

"In Ethiopia and in Spain it has been made clear to the world that our government has adopted a policy of strict neutrality."

"Repeated declarations and statements have notified war-seekers in Europe of the policy the President will follow if and when another serious conflict comes. It has been emphasized that as far as this administration is concerned, peace comes before war prosperity."

"Continuance of this Roosevelt policy—this constructive foreign policy—during the next four years is vital. While this policy may not be popular in some European capitals, it has clarified the situation."

"Meanwhile President Roosevelt's tariff reciprocity plan is coming to be regarded as one of the best and most practical international contributions toward world peace, toward recovery, and toward the elimination of friction between nations."

"This situation is one of the reasons I am so urgently asking the American people to re-elect Mr. Roosevelt. His opponents have been strangely silent about these vital matters. But we know that Senator Borah is the logical candidate for Secretary of War in a Landon cabinet. And he has stated that he wants the United States to enforce its commercial neutral rights on the high seas even if such enforcement means war. Here is an issue of war or peace, for Roosevelt is the peace champion of the world today."

POLITICAL WISDOM
Every American should be grateful to the present administration for the way in which it has met the social, political and economic needs of the country. William H. Regnery, Chicago manufacturer.

REPUBLICAN
"Scarcity" Taxes Slash
Food Purchase Power

By ANNE BROWN

CHICAGO, ILL.—When the clerk in the market totals the prices of your food purchases and hands you the bill, it's a shock.

But don't blame the store you are dealing with. Don't suspect that the farmer is profiting by these high prices. They are hit as hard as you are by the Roosevelt policies that are sending prices sky-rocketing.

In fact price raising has just begun. The federal Bureau of Agricultural Economics forecasts another 12 per cent increase by spring. Millions of dollars were paid out under Roosevelt administrative order to wealthy corporations for not raising sugar, cotton and other commodities. This was an expensive program of curtailment, for which the consumer eventually will pay the bill.

After curtailment came scarcity. Now foreign imports are pouring into this country at high prices to supply the demand.

Here's how the food budget is affected: Using an average community as a typical example (although prices vary around the country), three years ago a \$2 bill would purchase: 1 lb. bacon, 2 lbs. chuck roast; 1 qt. milk; 1 doz. eggs; 1 lb. butter; 6 lbs. potatoes; 2 lbs. cabbage; 2 lbs. onions; 1 can tomatoes; 1 can corn; 1 lb. sugar; 2 lbs. bread; 2 lbs. lard.

Today in the same locality, a \$2 bill purchases only seven items out of this list of 13. The food purchase ability of the consumer's dollar has been virtually cut in half under the New Deal.

Visualizing the Deficit
Washington, D. C.—The accumulated deficit of the New Deal, as reported by the treasury department, is more than the assessed value of all farm lands and improvements and all town and city lots and improvements of Virginia, Kentucky, Tennessee, the Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, Arkansas, Oklahoma, Missouri and Kansas, combined.

Landon for 4-H Clubs
"The development of sound leadership in agriculture through the 4-H Clubs is bound to be of great benefit in the developing of a sound leadership for agriculture in the future."

Heritage of Debts
We must remember that every time the government spends a dollar, that dollar will have to be paid by us or we must pass the debt on to be paid by our children. No parents like to leave their children a heritage of debts and mortgages.—Alf M. Landon

Clothes Are High
More than one-fourth of the price of the suit of clothes you buy represents Roosevelt administration taxes.

Knotholes & Sawdust

Vol. I—No. 10 Issued by L. E. Davis, Bethel Oct. 15, 1936

"When your boy grows up, I suppose you'll buy him an encyclopedia." "I should say not—let him walk to school with the rest of the kids."

John Hurbank is doing a remodeling job at Mrs. Upson's on Broad St. We sent up some of our good spruce for the foundation and frame. It is good enough for anybody.

"What happens when a hen lays an egg?" "That chicken lays an egg."

"I give it to the chicken." "I like you and I like coming back from the market but I don't like father."

"Because that chicken stays there in the coop."

WEST PARIS

Rev. Eleanor B. Forbes will observe the thirty-fifth anniversary of her ordination to the Christian ministry on Sunday morning, Oct. 18, by inviting to the morning service any couple whom she has married during these years or children whom she has baptized. Friends are also invited to attend.

The Father and Son Banquet at the Universalist Church was largely attended and a very happy occasion for all. Good Will Hall was filled to its capacity, a number being served at the second table. Rev. Eleanor B. Forbes presided and the West Paris Band discoursed music during the evening. Miss Shirley Welch gave a humorous reading. The guest speaker of the evening was Rev. Warren S. Palmer of the Congregational Church, Norway, who spoke on "Friendship." Principal Edward Wilnot also spoke on the same line of thought. Both addresses were timely and interesting.

Mrs. H. R. Tuell and Lewis J. Mann were at Pittsfield, Saturday, to attend the funeral of Mrs. Herbert Douglass.

An impressive christening service was held at the Universalist church Sunday morning when the pastor,

Rev. Eleanor B. Forbes, christened Virginia Louise and Kathryn Frances, daughters of Mr. and Mrs. Margaret Inez, daughter of Mr. and Mrs. Harold C. Perham; and John Hartley Ward; Eleanor Faye, the daughter of Mr. and Mrs. Leon Proctor, Constance Ann, daughter of Mr. and Mrs. Clayton Swift; Margaret Inez, daughter of Mr. and Mrs. Harold C. Perham; and John Wesley and Janet Patricia, children of Mr. and Mrs. John W. Lane of Hamilton, Mass.

Hamlin is confined to his bed by illness.

D. H. Spearin is visiting his parents at Portland.

Mrs. Arthur Herrick are visiting at Portland.

ward R. Carter of Farmington is visiting at his home here over the week.

Winona Chapin and Eve Hunt spent the week end in J. G. Gehring and party left for New York and points.

Mrs. Jack Gill spent the week end at Lisbon Falls visiting.

Mrs. Mary Andrews, R. N. of the Mills is caring for Edward.

Mrs. C. A. Rich of St. Paul, called on Mrs. Bessie.

Mrs. Gotthard Carlson, Sunday guests of her mother, P. B. Tuell.

Mr. and Mrs. G. N. Sanborn were guests of Mr. and Mrs. H. King at South Paris.

Mrs. Wilbur Myers are giving congratulations on the birth of a daughter Oct. 15.

Mr. and Mrs. Frank Frost of Bethel and Mrs. Lizzie Cobb of Bethel were recent guests of Mr. and Mrs. G. N. Sanborn.

Mr. and Mrs. F. H. of Haverhill, Mass. has joined Mr. F. H. at home of their nephew, Dr. S. President, and family.

Mr. and Mrs. Wheeler, who has been spending the summer in Bethel, has gone to Paris Hill where he has employment for the winter.

Mr. and Mrs. Irving Wilson, Miss Wilson and Mrs. Myrtle Wilson visited Rev. and Mrs. E. L. Green at South Portland on Wednesday.

Miss McKeen, a student of the Eye and Ear Infirmary at Portland, was a week end guest of Mrs. S. Greenleaf and family.

Mrs. J. Mrs. Grant Maxson who has been spending a two weeks vacation with Mrs. Maxson's parents, Mr. and Mrs. G. N. Sanborn, and Filday for New London where they will spend the week.

On Friday evening of last week a group of Union Veterans and their families enjoyed a social at the home of Mr. and Mrs. S. Hutchinson with 50 present.

Following the supper a hostess session of the Camp and Auxiliary was held with election of officers.

MAINE POTATO CROP OUTLOOK UNCHANGED

Moderately favorable growing conditions during September limited damage to the Maine potato crop, the outlook for which remains unchanged on October 1 from the prospects a month earlier, according to a joint report released today by the Maine and United States Departments of Agriculture.

The Maine potato crop is now forecast at 41,340,000 bushels compared with 38,880,000 bushels harvested last year, and 44,078,000 bushels the five year average. In Aroostook county frost late in September killed the vines and yields are extremely variable depending largely upon the extent of blight damage and subsequent loss of tubers from late blight rot. The set of tubers was generally heavy but many of them are small in size. Throughout New England potato yields are generally better than a year ago. The total New England potato crop is now forecast at 61,904,000 bushels compared with 47,276,000 bushels harvested last year, and 61,556,000 bushels the 1928-1932 five year average.

The total apple crop in Maine is considerably smaller than that expected a month ago. The crop is now forecast at 468,000 bushels compared with 893,000 bushels harvested last year and 1,830,000 the five year average 1928-1932. Growers report all varieties as having good size and color. It is expected that about 325,000 bushels will be placed on the market this year as the commercial crop compared with 588,000 bushels in 1935. For New England as a whole the commercial apple crop is forecast at 2,557,000 bushels compared with 4,275,000 bushels last year and 5,229,000 the five year average.

The Maine corn crop held its own during September and is now forecast at the grain equivalent of 444,000 bushels compared with 456,000 bushels in 1935. Yields of small grains, oats, wheat, barley, and buckwheat are light this year in Maine. The oat crop is estimated at 3,955,000 bushels compared with 4,068,000 bushels harvested last year. The estimate of hay production was reduced during September and is now 847,000 tons approximately equal to the 1935 crop. Pastures improved during September and condition on October 1 was reported at 69% of normal compared with 66% last month and 79% the ten year average.

To All Who Suffer From Acute Attacks

Asthma - Bronchitis

Persistent Coughs

Two or three doses of the F. H. BUCKLEY'S MIXTURE in about one hour before retiring usually bring a restful night's sleep. Asthma-Bronchitis sufferers who enjoy a coughless night, you will be just what you need. For 3 doses before you go to bed. Note - While BUCKLEY'S is not offered as a cure for Asthma or Bronchitis it will give immediate relief from that choking sensation that chokes the breath. BUCKLEY'S MIXTURE is the all good drug on a guarantee of full satisfaction or your money back.

SUPPRESSED EMOTION

Mrs. Joseph was obviously suffering under the stress of suppressed emotion when her neighbor Mrs. Diddle called one morning. "Whatever is the matter, dear?" exclaimed Mrs. Diddle. "You look all worked up."

"It's my husband. He's out of his mind with another woman! Oh, I can hardly control myself!"

Mrs. Diddle gatted her neighbor's leaving shoulders.

"Don't try to do that!" she said. "You'll feel better after a good laugh!" Montreal Star

ADNEY GURNEY, Manager

Persons You Meet . . .

GERARD S. WILLIAMS

Mr. Williams is a native of the town of Jay, the son of Rev. and Mrs. L. S. Williams. His school days were spent in his home town and at Wilton Academy, after which he attended Suffolk Law School in Boston where he graduated in 1933. During his course there he served for two years as librarian. He was admitted to the Maine bar in the fall of 1933 and for nearly a year was engaged in the practice of law with his brother Leonard in Lewiston.

He came here on October 27, 1934 and opened the law office at the corner of Main and Broad streets, formerly occupied by the late Henry H. Hastings, where he enjoys a successful and growing practice.

Mr. Williams has displayed a helpful interest in many local affairs since coming to town. He is chairman of the Republican Town Committee, secretary of the Bethel Chamber of Commerce, and secretary of the Bethel Athletic Association. He is a member of the Board of Assessors of the Bethel Village Corporation and has acted as a mediator at town and corporation meetings. He is a member of the Baptist Church of Bethel, Corner Jays, and of Bethel Church of which society he is secretary.

BETHEL AND VICINITY

Miss Jennie Rich and Miss Eva Bean are keeping house for their aunt, Mrs. A. M. Bean, during the month's absence of Mrs. Clarence Fox who is vacationing in Washington, D. C., and other points of interest.

A serious handicap to the successful use of our new fire apparatus was noted at the time of Tuesday's fire when traffic, both pedestrian and motor, impeded the progress of the hook and ladder truck. Although high speeds are not to be expected on the village streets it should not be necessary to bring any fire fighting equipment to a stop to avoid collision.

CHAPTER XI

"I can't imagine," repeated Sylvia, still very rosy and flustered, but with her most magnificent air, "what brought you to Wilton—I really cannot."

"Can't you?" grinned Horatio cheerfully.

"No, I cannot."

From his superior height of six feet-two, he looked down at her meager five feet, amusement twinkling in his eyes.

"You wrote me to come, didn't you?" he presently inquired.

"I wrote you to come!"

"Well, at least you led me to suppose you'd like it if I were here," persisted Horatio. "Toward the bottom of page two you said: 'I am positively homesick'; and in the middle of the back of page three you wrote: 'It seems years since I've seen you.'"

"What if I did?" answered the girl with a disdainful shrug.

Nevertheless the dimples showed in her cheeks.

"And that isn't all," Horatio went on. "At the end of page five you wrote: 'Would that you were here!'"

Sylvia bit her lip.

"That was only a figure of speech—what is called poetic license."

"Then you didn't mean it when you said you wished I was here," Horatio was obviously disappointed.

"Why, of course I am pleased to see you, Horatio. It is very nice of you to come to the Cape to meet my aunt and—"

"Darn your aunt!" he scowled. "I didn't come to see her. I am not interested in aunts."

"Take care! I happen to be very keen on this aunt of mine. If she didn't like you, you might get sent home. Don't be horrid, Horatio. I truly am glad you've come. You must make allowance for my being surprised. I haven't got over it yet. How in the world did you contrive to get away at this season? And what sort of a trip did you have?"

"Well! I stopped overnight in New York at the Gardeners. Mother wanted me to deliver a birthday cake to Katelin, who, you may remember, is the mother's goddaughter. She's a pipkin, too. I hadn't seen her since she graduated from Vassar."

Sylvia listened.

"It wouldn't fit me. My hands are too small. Well, I suppose I might try it to please you. But I know it will be too large."

She slipped it on her finger.

"Looks rather well on, doesn't it?" was his comment.

"It is a beautiful ring," Horatio, standing behind her, twice extended his arms as if to gather her into them and twice withdrew them, deciding the action to be premature.

At length with a determined squaring of his shoulders, he locked his hands behind him and stood looking on while she continued to twist the ring this way and that.

"Well," yawned he after an interval, "I suppose I may as well put it back in the box."

"Don't you think it would be wiser if I took care of it for you, Horatio?" suggested she demurely.

"You are dreadfully careless. Only a moment ago you had no idea where the ring was. If it is on my finger you'll know exactly."

"Bully idea! So I shall! Now tell me where you're off to. You were in a frightful hurry when you burst through that door."

"So I was," agreed Sylvia. "And here I am loitering and almost forgetting my errand. Come! We must hurry. I've got to go to town. Want to row over?"

"You bet your life! Show me the boat."

Leading the way to the yellow dory, she took her place opposite him and he pushed off.

As they sat facing one another, her eyes roamed over his brown suit; his matching tie, handkerchief and socks; his immaculate linen; his general air of careful grooming, and she could not but admit he wore his clothes well. He was not a small town product.

Three years in an eastern preparatory school, followed by four years of college life had knocked all that might have been provincial out of Horatio Junior.

She suddenly became aware that the boat was being guided by a master hand.

"Why, Horatio Fuller, I had no idea you could row like this!" exclaimed she with admiration.

"Wherever did you learn to pull such an oar?"

"Varnish crew."

"Of course, I had forgotten," she apologized, her eyes following as with each splendid stroke the craft shot forward.

Although the oarsman ignored her approbation he was not unmindful of it.

"Where do we land?" he asked.

"Anywhere."

He bent forward and with one final magnificent sweep sent the nose of the dory out of the channel.

"Come on," he called, leaping to the beach.

"But—but, Horatio—I can't get ashore here. I'll wet my white shoes."

"Jump."

"It's too far. Pull the boat higher on the sand."

"Not on your life. Jump, darling! I'll catch you."

"Nonsense! Where's your sport-ing blood? Don't be afraid. I'm right here."

"Suppose you shouldn't catch me?"

"But I shall."

He would! She was certain of it. Still she wavered.

"I don't want to jump," she protested.

"You'll have to. Come on, Beau-tiful. You're wasting time."

"I think you are perfectly horrid," she lunged out as she sprang forward.

An instant later she was in his arms and tight in a grip she knew herself powerless to loosen.

"Let me go, Horatio! Let me go!" she pleaded.

"I shall, sweetheart. All in good time. Before I set you free, though, we must settle one trivial point. Are we engaged or are we not?"

She made no answer.

"If we're not," he went on, "I intend to duck you in the water. If we are, you shall tell me you love me and go free."

A smile, a smile illuminated her face.

"I don't want to be ducked, Horatio," she murmured, raising her arms to his neck.

"How precious thing! You shall be."

Now the rest of it. Say you love me.

"Let Me Go, Horatio! Let Me Go!"

"She—she—thought she ought to have had more, you mean? A hundred dollars is quite a sum in these days. She would better have grabbed it tight and been thankful. My respect for the bandit chap is rising. I should call him an honest gentleman."

"It is useless to talk with you, Horatio—I can see that," Sylvia said, stiffening. "A delicate affair like this is evidently beyond your comprehension. You cannot understand it. All you do is to make light of every word I say."

"I'm not making light. On the contrary I guess I am taking the situation far more seriously than you are. I don't like the moral tone of this place at all. It looks to me as if you had got into most undesirable surroundings. The sooner you are married to me, young woman, and out of here the better. As for this remarkable aunt of yours—"

"Stop, Horatio! Stop right where you are," begged Sylvia. "One more word against Marcia and back home you go so fast you won't be able to see for dust. I'm in earnest, so watch your step."

"The woman has bewitched you," frowned Horatio.

"She has. She bewitches everybody. She'll bewitch you."

"Not on your life!"

"Wait and see. Mr. Heath will bewitch you, too."

"The—the—"

"Yes, the burglar, bandit, thief—whatever you choose to call him. You'll admit it when you meet him. We are going there now."

"To—to—call!"

"To return the check I just told you about. You're the stupidest man I was ever engaged to, Horatio. Why can't you listen?"

"I am listening with all my ears."

"Then the trouble is with your imagination," Sylvia said in her loftiest tone.

They walked on in silence until presently the girl stopped before the gate of a small, weather-beaten cottage.

"Well, here we are at Eliza's," she remarked, turning in at the gate.

to a shred. Eliza is the I'm going to coax him to be the prisoner."

They walked on the narrow shell path, bordered by thrifty perennials.

As they did so, the small radio drifted through the open door.

Sylvia peeped in.

Eliza, too intent on the to hear her step, was sitting the loud speaker, smoking.

"I've come to see Mr. Heath," she shouted above the walls of a long orchestra.

"I ain't sure as I'd better see him," hesitated Eliza.

"I'll take the responsibility," said Sylvia, who got with called the sheriff.

"He's nobody—just my man," said Eliza.

"Your what?"

"The man I am going to gettin' married, are you lookin' feller? I heard at the office you had some chap off'n. But to let him see Mr. Heath?"

"Where I go Horatio goes," Sylvia retorted.

Eliza weakened.

"Wal, in that case—" she began. "Come on, Horatio," she called.

Leaving Eliza absorbed in her own thoughts, the two crossed the corner of the cottage and themselves in the presence of Mr. Heath.

(To be Continued)

POPEYE

A Joplin father has been pressed by the "Knock, knock, knock" craze. His boy is away at college and relayed him this one: "Knock! Who's there? Popeye who? Popeye needs some money." And he meant it so doesn't think it so dogmatic—from the Joplin (Mo.)

SONGO PONI

The volume of farm records recorded by commercial banks during the first five months of 1936 is 65% above that of two years ago. Individuals were the most important source of mortgage loans followed by the federal land commercial banks, and insurance companies.

Mrs. Augusta McKern has returned to Norway and is staying with her daughter, Mrs. Edith Fingers.

Mr. and Mrs. Fred Hildreth drove through Keegan's Place Sunday.

MAINE MEETING HOUSE

Many residents of Maine on reading in their newspapers of the extent of our recreational business doubtless wonder how any accurate estimate can be possible.

Five years ago, the Maine Development Commission realizing how important an estimate would be, made a survey of the entire state.

Everett Gration, now executive secretary of the Commission, but at that time its field worker, visited every city, town and hamlet in the state. He visited every hotel, sporting camp and any other point of interest that the tourist has in Maine. Tax receipts were studied.

The number of people employed in the industry was obtained.

For this purpose 1930 was selected for study because of the fact that it was nearer normal than the top spending year of 1929 and yet was a better year than 1931 and 1932, the depression years.

At that time, recreation was the second largest industry in the state, being exceeded only by the paper and pulp industry. At present, however, it has outstripped even that industry and stands at the top of the heap.

In 1930 it was found that the recreational business amounted to \$85,684,741. By a comparative check on toll receipts at the various toll bridges, the percentage increase from year to year in revenue from tourists stopping at hotels, sporting camps and the like, it is possible to arrive at a very close estimate of the value of recreation for any given year. Figures given out by other state departments make it possible to tell in just what position the recreational business stands in relation to others.

In 1930, the "average year," 22,578 persons in Maine were employed directly by the recreational industry. Countless thousands of other workers benefitted to some extent through employment in the stores and industries which were patronized heavily by summer people.

Taxes paid on private recreational property owned by out-of-state residents, and of course exclusive of hotels and other public places, was \$1,574,008.

Wages paid to caretakers, groomers, gardeners, etc., amounted to \$1,462,139. Guides earned \$391,250 that year.

Hotels and sporting camps alone paid \$1,369,886 for farm produce. They hired 12,500 employees, many of them girls and boys earning money for educational purposes, to whom they paid \$2,321,795.

There were 182 boys and girls camps in Maine that year, the total assessed value of these camps being \$7,137,000. They employed 5,100 people to whom they paid \$254,263 in wages. They bought farm produce to the value of \$422,002.

Along our coastline summer resorts and visitors were responsible for the employment of 881 persons who earned \$374,800 building pleasure boats.

A list of those participating in the disposal of the more than \$15,000,000 spent in 1930, including owners and employees, took in nearly every branch of industry in the state. Following are a few:

Farmers: hotels, overnight camps, tourist homes, sporting camps, tea rooms, restaurants, grocery and meat stores, sea food dispensers, bakeries, ice, fuel, plumbers, contractors, builders, masons, electrical contractors and electrical mar-

chandising stores, department stores, drug stores, confectionary shops and clothing stores, furniture stores, garages, filling stations, amusement establishments, florists and nursery establishments, sport and game stores, pilots, marine engineers, sailors and sea captains.

Police stations, physicians, photographers, waiters, cooks, chauffeurs, barkeepers, etc.

Since 1930 by the recreational industry, contributed the major part of the receipts of many Maine towns and formed an appreciable part of the income of others.

So this does not take into account the hundreds of thousands of Maine taken in as gasoline taxes.

CHURCH ACTIVITIES

Neither does it take into account that our recreational business this year was in excess of that of 1930.

It is a business that has allowed us to emerge from the depression in far better shape than many other less fortunate states. It is a business that we cannot well afford to lose—one that pays us dollars to replace the cents we spend in developing it.

MAINE EXPERIMENT STATION GIVES FARM STATISTICS

A periodic inventory of Maine agriculture is exceedingly important to our agricultural interests, states Dr. Charles H. Marchant, Head of the Department of Agricultural Economics of the Maine Agricultural Station. In 1935 the United States Bureau of the Census collected an inventory of the agriculture of the State of Maine. Much of this information has been published by counties. However, for many purposes tabulations by towns are extremely valuable to agricultural workers in helping them to direct their efforts in solving problems. The Maine Department of Agriculture and the Maine Agricultural Experiment Station have cooperated in making this material available in published form.

The information on Maine agriculture in 1935 may be found in Maine Agricultural Experiment Station Bulletin 382. This publication includes statistical information on a town basis for the number of farms, uses of land, acreage and production of various crops, and the number and production of various classes of livestock. The location of the more important agricultural enterprises of the State are shown on maps. In the bulletin there is a large map of the State of Maine showing the individual towns with their names.

The latter part of Bulletin 382 deals with the major trends in agriculture of the State. For example, the acreage of potatoes in Aroostook County has increased from 14 thousand acres in 1878 to nearly 134 thousand acres in 1934.

Food and Drugs Inspections In this bulletin are given the results of the chemical examination of the samples of foods and drugs collected and submitted by the Division of Inspections of the Department of Agriculture, Augusta, from May 1, 1935 to May 1, 1936. Samples of Hamburg steak, ice cream, maple products, molasses, oil used in packing sardines, sausage, barbitol, headache remedies, diluted hydrochloric acid, soda mint tablets, and sweet spirit of nitro have been examined and the results of the analyses are reported in Official Inspections 159.

Copies of these bulletins may be obtained by writing to the Maine Agricultural Experiment Station, Orono, Maine.

GILEAD

Mr. and Mrs. George Richardson of Derry, N. H., are visiting relatives in town.

Mrs. G. E. Leighton has returned home from Gray, where she has been visiting her daughter, Mrs. Ira Cole.

Miss Stella Nedean of Berlin, N. H., spent the week end with her parents, Mr. and Mrs. Joseph Nedean.

Mrs. Elizabeth Cook, sons Jesse and Daniel, and Miss Hazel Spear of Portland were guests of Mrs. Elizabeth Richardson Sunday.

Mrs. Jennie Littlehale of Bethel was a guest of relatives here Sunday.

The many friends of Mrs. Ellen Wentworth are sorry to learn of her death which occurred at the home of her son, E. D. Curtis, at Haverhill, N. H., Tuesday.

7:30 p. m. Young People's Service.

CHRISTIAN SCIENCE SOCIETY

Sunday School at 10 o'clock.
Services Sunday morning at 10:45. "Doctrine of Atonement" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, Oct. 18, 1936.

The Golden Text is: "Christ is not entered into the holy places made with hands, which are the figures of the true; but into heaven itself, now to appear in the presence of God for us." (Hebrews 9:24).

Among the citations from the Bible is the following: "These words spake Jesus, and lifted up his eyes to heaven, and said, Father, the hour is come; glorify thy Son, that thy Son also may glorify thee: And now I am no more in the world, but these are in the world, and I come to thee. Holy Father, keep through thine own name those whom thou has given me, that they may be one, as we are. Neither pray I for these alone, but for them also which shall believe on me through their word: That they all may be one; as thou, Father, art in me, and I in thee, that they also may be one in us: that the world may believe that thou hast sent me. I in them, and thou in me, that they may be made perfect in one; and that the world may know that thou hast sent me, and hast loved them, as thou hast loved me." (John 17:1, 11, 20, 21, 23).

The Lesson-Sermon also includes the following passages from the Christian Science Textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Jesus aided in reconciling man to God by giving man a truer sense of Love, the divine Principle of Jesus' teachings, and this truer sense of Love redeems man from the law of matter, sin, and death by the law of Spirit—the law of divine Love." (Page 19:6-11).

Wednesday testimonial meeting.

WEST BETHEL

The Ladies Aid met with Roland Kneeland last week. They meet this week with Mrs. Violet Bennett.

Fred Lovejoy and son attended working for J. A. McKee, Mazon.
